

THE TERMINATOR

True to his name  
and evident of his character  
Arnold Schwarzenegger is a terminator.

He has terminated  
the educational opportunities,  
qualities, benefits, and standards  
thereof in the state of California.

He has terminated  
many hopes and dreams of employment  
job security, home security,  
and doubled homelessness  
throughout the state.

He has terminated  
the lives of many mother's sons,  
and children's fathers  
by his denials of clemencies,  
lack of proper medical treatment  
and care within statewide institutions.

One has to wonder  
if his acting as a governor  
is from a written script?

He has failed in all his promises.  
Whenever there is a budget crisis  
the poor communities are made to suffer.  
Schools are closed,  
programs which serve the people are cut.

He certainly comes from no future time  
to save any one person,  
or state of California.  
He came to us as the Terminator,  
and he has been Terminating everything  
he touches in California.
