I.M.U The Super Max Shoe.
Is the Intensive management unit.

They Say it's not a Disciplinary
Housing unit. They being Oregon Department
of Corrections. that's a lie.

Prisoners are Locked in the cells 23 hours
a Day. Some times 24 hours a Day.

Every time you come out of your cell,
You are handcuff behind your back.

They Put a Dog-leash on the cuff's
and walk you where you need to go.

They Say it's a Program. but it's not
it's Disciplinary Solitary Confinement
were you get less food. ~~Less~~ Less Medical Care.

You See it on T.V the Shoe Super Max.
But what you Dont See is Prisoner's crying
all night. Some Yelling with feces all over
them. wanting the Cops to come in to there
"Cage" and take a betting for some tipe of
Stimulation. We are Just animals ~~Not~~
Not humans any more.

Some People Die from being beaten to Death but it get the Cover up every time. Medical is on there Side.

There are men that have been there 15 teen years. they have lost there mind. There brain Dont work right any more.

I.M.U is not a Program. It's Punishment retributive suffering inflicted on a human brain. It makes people in to animals.

Not any Stimulation or Color. and they Make money off this. Me I have been there 4 times after the hole shot. being 180 day Seg time I will be going back I dont know if my mind will be able to take it this time.

The Real Cost of Prisons is they "D.O.C" Makes People. your Son's your daughters in to animals. Violence furious sudden and intense anger is all they know. What Part of rehabilitation is being Locked in a "Cage" 23 or 24 hours a day.

There is not any rehabilitation. Just Suffering and Torure inflicted By OREGON DEPARTMENT OF CORRECTIONS. And all DEPARTMENT OF CORRECTIONS who Make People in to animals.
